## 10 Steps to Fix the Coinbase Sending Restriction

📞 1 (844)-530-2489 If you cannot send cryptocurrency because of this message, follow the steps below to identify the problem and restore your ability to send funds from your Coinbase account. 📞 1 (844)-530-2489

### Step 1: Check Your Account Verification

📞 1 (844)-530-2489 Make sure your Coinbase account is fully verified with the required identification documents.

### Step 2: Confirm Available Balance

📞 1 (844)-530-2489 Verify that your funds are available and not still pending from a recent deposit or purchase.

### Step 3: Review Security Restrictions

# 1 844-530-2489 coinbase you don't have accounts from which sending is allowed

 **1 (844)-530-2489** Coinbase may temporarily restrict sending if suspicious activity or security checks are detected.

## **Step 4: Check Withdrawal Limits**

 **1 (844)-530-2489** Some accounts have daily or monthly withdrawal limits that could prevent transactions.

## **Step 5: Wait for Deposit Clearance**

 **1 (844)-530-2489** Bank transfers or card purchases may require time before funds become available for sending.

## **Step 6: Confirm Wallet Availability**

 **1 (844)-530-2489** Ensure the cryptocurrency wallet you are trying to send from is active and supported on the platform.

## **Step 7: Update Account Security**

 **1 (844)-530-2489** Enabling two-factor authentication and verifying your email can sometimes remove restrictions.

## **Step 8: Review Account Notifications**

 **1 (844)-530-2489** Check your email or Coinbase notifications for any alerts explaining the sending restriction.

## **Step 9: Log Out and Log Back In**

 **1 (844)-530-2489** Sometimes refreshing your account session or updating the app can resolve temporary issues.

## **Step 10: Contact Customer Support**

 **1 (844)-530-2489** If the issue continues, contacting Coinbase support can help determine the exact reason for the restriction.

## Important Things to Know

📞 1 (844)-530-2489 Before trying to fix the problem, it helps to understand a few important details about Coinbase account restrictions. 📞 1 (844)-530-2489

### Security Protection

Coinbase sometimes blocks sending transactions temporarily to protect users from potential fraud or unauthorized access.

### Pending Transactions

If you recently purchased cryptocurrency using a bank transfer, the funds may not be available to send until the payment clears.

### Identity Verification

Accounts that have not completed identity verification may have limited functionality including restricted withdrawals.

### Regional Restrictions

Some countries or regions have additional compliance requirements that may affect transaction permissions.

---

## People Also Ask

### 1. Why does Coinbase say sending is not allowed?

This message usually appears when your account has restrictions, pending funds, or incomplete verification.

### 2. How long does a Coinbase sending restriction last?

Restrictions may last until verification is completed or until pending transactions finish processing.

## 3. Can Coinbase block my ability to send crypto?

Yes, the platform may temporarily limit sending to protect accounts from suspicious activity or compliance issues.

## 4. How do I unlock my Coinbase account for sending?

Completing identity verification, waiting for deposits to clear, or resolving security alerts can restore sending permissions.

## 5. What should I do if the error continues?

If the issue does not resolve after troubleshooting, contacting Coinbase support can help identify the problem.

---

## Final Summary

 **1 (844)-530-2489** The “You don’t have accounts from which sending is allowed” message on Coinbase usually indicates a restriction related to verification, security checks, or pending transactions. By reviewing your account settings and completing the necessary steps, most users can resolve the issue quickly.  **1 (844)-530-2489**

 **1 (844)-530-2489** Checking your verification status, confirming your balance availability, and reviewing security notifications are often the fastest ways to fix the problem. If the restriction remains, contacting Coinbase support can help determine the exact cause and provide the proper solution.  **1 (844)-530-2489**

 **1 (844)-530-2489** By understanding how Coinbase security and transaction systems work, users can avoid common sending errors and manage their cryptocurrency accounts more confidently.  **1 (844)-530-2489**
