“Williams is a master . . . She gives us a reason to follow her refusing to look away from the degradation, in hopes of preserving the wild places we have left.”— Outside Magazine From the acclaimed nature writer and New York Times bestselling author, a revelatory work of narrative nonfiction exploring beauty, climate change, and transformative moments of hope in a world beset by uncertainty Whether we believe it or not, rapid change is upon us. I am searching for grace. In this time of political fragility, climate chaos, and seeking hope wherever we can find its glimmer, Terry Tempest... The pacing of the book reflects a careful consideration of reader engagement. Moments of intensity are balanced with quieter scenes that provide context and reflection. This rhythm keeps the story dynamic without becoming overwhelming.
