Cuppabeans 500gm vs Cuppabeans 1kg – Which One Is Right for You?

Cuppabeans 500gm is ideal for smaller offices, boutique setups, or locations with moderate coffee consumption. It's easy to handle, store, and rotate – ensuring freshness at all times.

Cuppabeans 1kg is the go-to choice for large organisations, high-footfall venues, and shift-based workplaces. The larger pack size offers better value per cup and reduces the frequency of restocking, making it highly practical for busy environments.
