Introduction

When Darkslayer Darien Cassel first took human Loren Calla under his wing, he'd made a promise to protect her from anything. And now that she has fallen into a coma, every day a losing battle to return to life, he is determined to save her. When he hears rumors of the one place in Terra that houses a secret that

just might bring her back to him, he drops everything to try it, leaving behind the city he grew up in and the people he calls family. His decision sets his best friend Maximus Reacher onto a road of his own—one no less dangerous than Darien’s as he unearths the secrets of his past, uncovering a multitude of lies and legends better left buried. Meanwhile, in the historic city of Yveswich, Roman Devlin of the House of Black gets tangled up with a shapeshifting Selkie of the Riptide, a member of a rival Darkslaying house and a thorn in his side. Shay Cousens is a pickpocket with endless tricks up her sleeve—and if Roman isn’t careful, she might succeed at stealing both his wallet and his heart as they work together to find her missing sister. Their path will lead them not just to Angelthene, but also into the dark secrets of the Phoenix Head Society—and the restorative body of water that has the power to cleave their world in two. Loyalties are tested, and worlds collide in *City of Lies and Legends*, the third installment in the House of Devils series.
