About "Last Argument of Kings"

The end is coming. Logen Ninefingers might only have one more fight in him, but it's going to be a big one. Battle rages across the North, the King of the Northmen still stands firm, and there's only one man who can stop him. His oldest friend, and his oldest enemy: it's time for the Bloody-Nine to come home. With too many masters and too little time, Superior Glokta is fighting a different kind of war. A secret struggle in which no-one is safe, and no-one can be trusted. And, as his days with a sword are far behind him, it's fortunate that he's deadly with his remaining weapons: threats, blackmail and torture. Jezal dan Luthar has decided that winning glory is too painful an undertaking and turned his back on soldiering for a simple life with the woman he loves. But love can be painful too – and glory has a nasty habit of creeping up on a man when he least expects it. While the King of the Union lies on his deathbed, the peasants revolt and the nobles scramble to steal his crown. No-one believes that the shadow of war is about to fall across the heart of the Union. Only the First of the Magi has a plan to save the world – as he always does – but this time there are risks. There is no risk more terrible, after all, than to break the First Law... Many readers appreciate how the book gradually builds toward its conclusion without rushing. Key ideas are given space to develop, ensuring that the ending feels earned rather than abrupt. This thoughtful resolution contributes to overall satisfaction.
